"MUSIC HATH CHARMS."

A Party of Pin-feathered Youths Go Screnading, Make "Loud and Unusual Noises," and Come Near Being Gobbled by the Police.

A party of "upper crust" young men made arrangements a few nights since to serenade one of the "fairest of the very fair" daughters of the city. They engaged a German band of many instruments early in the evening, and then started out to have a little fun by themselves before the time appointed for the band to report for duty. These young men did not belong to the Good Templars, hence they were not as particular about what they drank as they might have been. Before the time for "starting out" arrived each one had got on the outside of a considerable quantity of hydrant water, mixed with enough "old crow" to Judge of the City Court until the The funeral of the late James Ghormterizes the Ohio river water.

His eccentric character personations we consider at least equal, if not superior, to the celebrated Alf. Burnett's. As a vocalist, comic and sentimental, he has no superior. PUBLIC NOTICE

I wish to notify the public of an nuwar-ranted breach of faith on the part of a lady to whom I was engaged to be married, that she may be known in her true character. The Summer Exodus.

NEW YORK, June 2. It is too hot to be comfortable in town, and almost too hot to pack up for the country. Still, a great many of us are getting away, and I understand the watering-place hotels and the country boardinguses are filling up quite fast. All European steamers go out crowded, and it is only by an early application that one can get a comfortable berth to be sick in. The exodus of fortune's favorites (of course you know who fortune's favorites are) is going on so fast that there can't be many of them here to lend luster to the celebration of the annual Fourth. when that explosive anniversary comes It is a question whether Euor the watering-places will get most money from American fashiondom this season. At present the chances appear to be in favor of Europe, but possibly there will be a change. But however this may be, the flight of fashion promises to be greater than usual and the circumstance. greater than usual, and the city will doubtless be dull for three or four months. The maneuvering mothers with a stock of daughters to work off will be busy enough. I heard y sterday of an old lady who has disposed of three generations of girls already, and is good for another. She first took out her own daughters and mar-ried them off next her grand-daughters. when they became marketable; and a few years later she disposed of her great grand daughters, all at the watering-places. She is now about sever y-five and waiting for the 1 xt edition. If this old lady could be induced to hire out, no don it she would and plenty of profitable employment.

Silver Wedding.

From the Cin. Chronicle of Monday. Dr. Isaac Wise, of the Plum-street Jewish Temple, yesterday celebrated his silver wedding, after the manuer of the childre f Israel, at his residence, on College Hill. The ceremony was performed by his col-league, Dr. Lilienthal, who delivered quite an extended discourse on the career of Dr. Wise as a minister of the Jewish faith. eries of resolutions were then read by Mr Henry Mack, after which the Doctor received the congratulations of all present. A number of the boys of the cougrega-tion then presented the happy couple a valuable rocking-chair, which was accom anied with a little speech by Mr. Friedlander, who represented the young men. A poem, written expressly for the occa-on in German, from Mrs. Kleeberg, of

Louisville, was then read, after which Dr Wise rose, and with much feeling acknowledged his obligation both to God and to the many kind friends who had assembled to give him such unmistakable expressions ir confidence and affection.

Rumors About Mr. Stewart.

New York Letter to Boston Post. When a man is a millionaire every one talks of him. Perhaps no private citizen in the country is the subject of so many umors as A. T. Stewart. Every day a fresh story is started, and no matter how absurd it may be, thousands are ready to believe it. At one time Mr. Stewart trying to sell his wholesale house to the Government for a postoffice; at another, he is about to found an immense institution for everybody; then he purposes to sell his Fifth avenue place to the city for an art gallery, and next he is about to retire from business and devote the re-mainder of his life to all sorts of charity. The latest report is that he has joined the Catholic church, and donated twenty housand dollars to the House of the Good Shepherd, a Catholic institution. I have heard this story at least twenty times in the past few weeks, but I don't believe it many more will happen, I dare say, before the world grows much older. Mary was put into the wagon by main force, and Mr. Edgerton started for home. She swore that if Mr. Warner did not allow her to return she would burn the poorhouse at the first opportunity Turning to Mr. Edgerton, she vowed sl would kill his children, and if she could do it no other way she would poison them! New York waiters' strike was taken on Friday from the Fifth Avenue Hotel. He was an exceedingly thin, nervous and excitable little man, who had served at the hotel faithfully for years and saved a few hundred dollars. Fear of the association led him to join the strikers; but in a day after he left he came back and told Mr. Darling that if he would protect him from his associates, he would return. This Mr. D. promised to do, and gave him a room in the house—his family living outside. Yesterday morning, however, his apprehensions so wore on him that he beVINTERSMITH.

LOZENCES

EVER OFFERED TO THE PUBLIC.

Compounded of Purely Vegetable Ingredients.

ENTIRELY HARMLESS.

Safe for Children of any Age.

NEVER FAILS TO EFFECTUALLY

Destroy Worms.

Since the discovery of Santonin, the taste iess, active principle of the European Wormseed (Semen Contra) its consumption has wonderfully increased. The seed in substance has been long and favorably known as a vermlfnge, but its unpleasant taste and odor, and the bulk of the dose, have interfered with its use in this country. At this time the Santonin, on account of its being tasteless, and a reliable vermifuge, is fast dis placing all other remedles for worms.

Almost ali of the popular worm nostrums of the day depend for their efficacy upon the istound in varying proportions and of uncertain purity; and very often again in comnature.

My purpose is to present to the medical profession this valuable medicine in a siniple, reliable and agreeable form, in determ ined quantities and of uniform composition. To accomplish this, I have prepared these lozenges with great care, of Santonin of tested purity, very carefully distributed throughout the maa; from which the Lozenges are formed. The materiais have been so compounded that the Lozenges will stand unaltered by time or ciamate. The boxes are also impervious to maisture from the atmosphere.

To give the Santonin time for fuil effect upon the worms, the addition of any purgative medicine to the Lozenges has been avoided. It may, therefore, be proper, two or three hours after the administration of the second dose, to use some simple purgative for the purpose only of discharging the worms.

These Lozenges contain only pure Sugar and pure Sautonin. The only merit I claim is the ascertained purity of the ingredients, and its thorough and careful distribution, so that each Lozenge contains its exact portion of Santonin; the dose sufficlently indicating the quantity. C. H. WINTERSMITH.
